

Zirilio's Advanced Security Packages

36% of Cyber Attacks are aimed at small businesses and 60% of small businesses will close within 6 months of an attack*

This exclusive offer consists of all the right tools to help organisations keep their business safe from cyber risks. These risks include, but are not limited to; vicious viruses, spam, bots, dangerous applications and malicious websites.

We have put together an exclusive package which combines an industry leading appliance and premium support service. This bundle has been packaged at a very competitive price, to give every organisation an opportunity to protect their business.
